Dear John:

It is a great opportunity for me to pass on my sincere thanks and recognition to the outstanding Business Marketing personnel of AT&T.

This country's continued competitive advantage in the high technologies of data communications is essential to America's future. This technical excellence is necessary both in the world markets and for the use of those technologies to continue to increase productivity at home. My state, Massachusetts, is proud to have participated, through its educational resources, in the training of so many key people in this industry.

I am sure that I speak for my colleagues in the U.S. Senate in thanking these people for their contributions and for giving us their excellence.

Sincerely,

A handwritten signature in cursive script that reads "Paul".
