Dear Mr. Martinez,

I have known John Donovan for over 25 years. John was my thesis adviser and colleague at MIT, joint developer and co-taught courses in EECS and Sloan at MIT, co-authored four books, and founded two companies together. We have maintained a personal relationship and mutual respect through ups and downs throughout our relationship.

He is an extraordinary teacher and an extremely effective motivator. He is probably one of the most creative and high energy people that I know. These can be an especially important attributes in starting new educational and/or research activities.

I recommend him for an appointment as Professor at the Palm Beach Medical College. If I can be of any further assistance or provide any further information, please do not hesitate to contact me.

Sincerely,

A handwritten signature in blue ink that reads "Stuart Madnick".

John Norris Maguire Professor of Information Technology, MIT Sloan School
of Management
and
Professor of Engineering Systems, MIT School of Engineering
